

# NHS UPTAKE OF FREESTYLE LIBRE IN PRIMARY CARE

In January 2018, **261** new practices in **19** new CCGs, prescribed FreeStyle Libre in England.

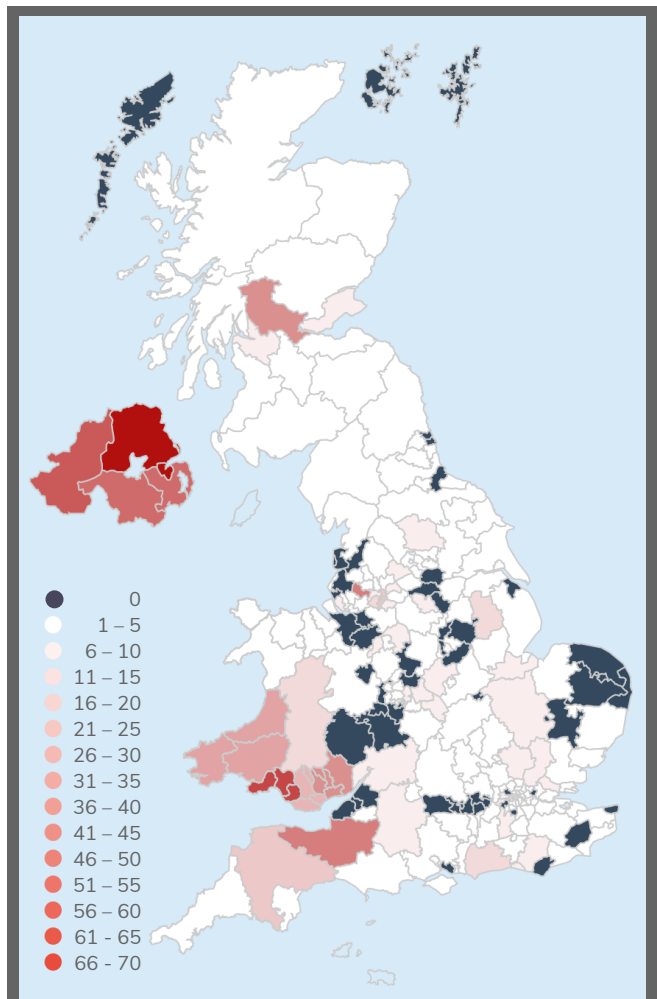

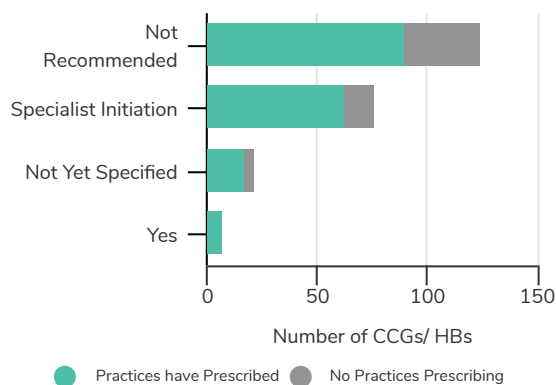

As further prescribing data becomes available, we will update our infographics to show how prescribing is changing.

## PRESCRIBING IN PRACTICE

Despite a mixed response from commissioning groups and area prescribing committees, so far FreeStyle Libre has been prescribed in practices in:

- 75%** of CCGs in England
- 64%** of HBs in Scotland
- 100%** of HBs in Wales; and
- 100%** of LCGs in Northern Ireland since November 2017.

## PRACTICE ADHERENCE TO LOCAL CCG / HB FORMULARY

## NUMBER OF PRACTICES PRESCRIBING FREESTYLE LIBRE BY CCG / HB

In data to January 2018, **1,414** practices across **177** CCGs and Health Boards had already prescribed the Libre sensor.

**56** CCGs / HBs had no practices prescribing yet
